1. Claims 1-26 are presented for examination.
2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a); or

4. Claims 1-26 are rejected under 35 U.S.C. 102 (e) as being anticipated by Jamtgaard et al. (US 6,430,624 B1).

5. Prior to addressing the grounds of the rejection, citation to figures and text within the reference serve only as an aid and are not exclusive in nature. Thus the whole of the reference is cited.

6. Per claim 1, Jamtgaard taught a method (eg., see Title) for providing a data service (eg., see Abstract) via a wireless mobile device (eg., see figure 1 (5)), the method comprising the steps of:

- a) receiving at a first node (eg., see figure 2 (12 and/or 13)), from a content provider (eg., see figure 3 (22) and col. 4 (lines 21-33 "content provider")), content associated with the data service ("RAW DATA" per figure 2),
- b) the content comprising a data component ("RAW DATA" of figure 2 (13)) and col. 4 (lines 8-20));
- c) associating a presentation format with the content (eg., see figures 3 (34), 18A, 18B, col. 1 (line 60-et seq.), col. 2 (lines 27-37), col. 3 (lines 6-9), col. 3 (lines 57-63), and col. 5 (line 26-et seq.));
- d) sending the data component and the associated presentation format to a second node (eg., see figure 2 between 12 and 14), col. 4 (line 58-et seq.), and col. 7 (line 1-et seq.);
- e) associating the content with the wireless mobile device (eg., see figure 2 in 14), and col. 7 (line 1-et seq.); and

f) delivering at least the data component of the content from the second node to the wireless mobile device (eg., see figure 3 (38 and 15), col. 3 (line 65-et seq.), and col. 7 (line 1-et seq.)).

7. Per claim 2, see col. 1 (line 60-et seq.), col. 2 (lines 27-37), col. 3 (lines 6-9), col. 3 (lines 57-63), and col. 5 (line 26-et seq.).

8. Per claims 3, 4, and 7 see col. 6 (line 1-et seq.).

9. Per claims 5, 6, 9, 10-12 see col. 6 (lines 49-53).

10. Per claim 8, since there are more than one device that are different the presentation format shown above are all device dependent and as such there has been shown above more than one presentation format.

11. Per claim 13, 14, and 18, see col. 3 (line 1 (first word) and col. 5 (lines 18-20).

12. Per claim 15, as detailed above, data is received from the content provider (ie., that which hosts a web page on the Internet).

13. Per claims 16 and 17, see col. 11 (lines 15-45). Also col. 14 (line 62) makes reference to "E-Trade" and as well known in the art, subsequent Web Pages provided to a subset of users who have subscribed to their services which required User ID and passwords to access one's own personal account.

14. Per claims 19-23, as detailed above, there was more than one wireless device different from among the others each requiring the "RAW DATA" to be customized for that wireless device.

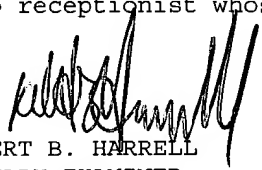

15. Per claims 24-26, these claims do not teach or defined above the correspondingly rejected claims given above, and are thus rejected for the same reasons given above.

16. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see MPEP 710.02, 710.02(b)).
